

**Quinnox implements S/4HANA Cloud, an intuitive and unified ERP platform,** resulting in increased transparency and efficiency in every aspect of the business.

# Client Background

A professional services company with a presence across geographies including North America, Europe and Asia with its development centers located in USA and India

## Business Need

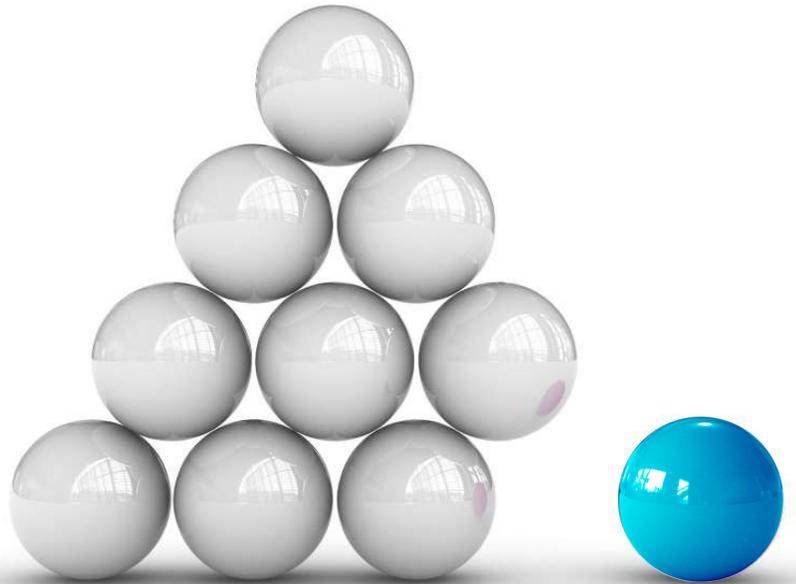

The need of the hour was to establish a strong ERP foundation to transform the existing business processes and build a future ready system that helped them remain responsive and competitive within the market.

### Key objectives include the following:

- Create a strong foundation to build the digital future of the business that addressed and adhered to the regulatory requirements
- Replace the various homegrown systems for projects and expense reimbursements with a single source of truth
- Automate operational processes such as Procurement processes, customer and vendor invoice generation, and usage or emails and spreadsheets to present data
- Eliminate laborious error-prone re-entry of data that the disparate systems require

# Solution

Quinnox identified S4 HANA cloud as the ERP foundation to create a single platform on which it could implement Project Systems, Procurement and Financials at a global level. The key aspects of the implementation included:

Implemented Project Systems module which provides better visibility into projects, employee allocations, utilization timesheets, and billing the customers.

Enabled service and asset procurement.

Seamless integration with SuccessFactors (covers Employee data, Leave details etc.) and Concur (covers expense management).

A custom solution to calculate delta cost on projects vs. payroll.

Integration of Asset accounting from acquisition till retirement.

Seamless integration between procurement and account payables.

Managed migration of legacy data using Quinnox's proprietary "Data Master" tool.

# Benefits

- A fit-to-standard solution that helped gain better visibility into operations, financials and improved resource management capabilities with strong controls and compliance processes
- Single source of truth with intuitive and seamlessly integrated Projects, Procurement, Expenses and HR applications
- Automated the Vendor and Customer Invoice generation process. The process used to take anywhere from **1-3** weeks has been reduced to **2-3** hours.
- Improved financial and managerial reporting with real time and accurate project profitability reporting
- Replaced **13+** paper-based processes with electronic workflows and notifications
- Improved employee experience rating from **3.7 to 4.0**

## About Quinnox

Quinnox is your agile, business-results-driven digital technology partner. With the power of human and applied intelligence, we simplify business processes, improve customer experiences, and create exceptional business value for forward-thinking enterprises. With the combination of cognitive solutions, conversational platforms, SaaS solutions, human and applied intelligence, we capitalize on new technologies to accelerate growth, innovation, efficiency, and resilience. Our data-driven digital solutions unlock the hidden potential of your business across your digital value chain, helping to accelerate success, today and tomorrow.
