## HUMANS OF QUINNOX

“

Quinnox is like a second home, and people with whom we work are like an extended family

”

The statement you read earlier is so true. Hi, I am Kamal P. Shroff, and I have been a part of Quinnox for the last 13 years. A 13-year stint often raises eyebrows as not many stay that long with a single organization, especially in today's IT and corporate world.

I usually rely on four non-negotiable conditions that help me decide my current and future standing— Does the company inspire me? Is my current position challenging enough and stretches me into different areas? Is the management encouraging and empowering me to do my best? And lastly, does the organization foster a great work environment and a collaborative spirit?

Well, to my utter surprise, Quinnox amazingly ticks all the boxes & does so consistently all the time. That's where Quinnox is built, different from other organizations!

I started here as a Retail Domain BA and went on to lead the mobile practice. Currently, I build practices and products as part of the project delivery team.

All these years at Quinnox have made me assured of one aspect — the organization is truly ethical in its various approaches and committed to its employee-first policy. I believe I can speak for all when we say that we are proud of our company culture and transparency within the organization. The flexibility to work across domains and technologies and the investment in training people in new areas of innovation motivate me to perform to my maximum. It's a company that inspires me. It's forward-thinking and innovative.

And finally, to sign off, knowing that you are part of a team that works tirelessly to come up with the next generation of solutions and brings forward new technology is a feeling not easily described. For me, this is more than a job. Every day, I take pride in the fact that I am investing my time, knowledge, and experience in a company that is equally investing in me."
